Top Line Survey Results
Pennsylvania Statewide Omnibus Poll ~ Voter Attitude Survey
Conducted September 22-28, 2025
Sample Size: 704 Likely Voters

TOP LINE RESULTS AND QUESTIONNAIRE **ELIZABETH TAYLOR AIDS FOUNDATION**

Good morning/afternoon/evening, my name is (YOUR FIRST NAME). I am calling on behalf of Susquehanna Polling and Research, a public opinion research firm. May I speak to (name on list) or another registered voter in your household? (If name on list or another registered voter is not available, TERMINATE)

INTRODUCTION: We are conducting a survey of attitudes and opinions concerning some important issues facing Pennsylvania today. May we have a few minutes of your time to complete a very brief survey?

Great, thank you...

F1. Are you registered to vote as a Republican, a Democrat, an Independent or with some other political party?

1. If Republican	309	44%	PROCEED TO Q1
2. If Democrat	315	45%	PROCEED TO Q1
3. If Independent/other	80	11%	PROCEED TO Q1

4. If not a registered voter	--		THANK AND TERMINATE

Now, I have some questions about various topics, thank you for your patience in completing this survey...

Q1. Many criminalization laws were drafted at a time when scientific knowledge of HIV was limited and there were fewer effective treatments. Currently, people who are on particular medications will have undetectable viral loads which means, according to the CDC, that there is effectively no risk of sexual transmission. Should current HIV laws be modernized and updated to take into account current scientific knowledge about transmission?

	<u>2025</u>		<u>2023</u> % Ch	
1. Yes	441	63%	76%	-13
2. No	76	11%	14%	-3
3. Not Sure	185	26%	10%	+16
4. Refuse	2	00%	--	--

Q2. Studies of these laws show that current criminalization laws against people living with HIV have the unintended consequences of discouraging these individuals from seeking proper testing and treatment, and/or disclosing their diseases to medical professionals. Should current HIV laws be modernized and updated to incentivize testing and treatment?

	<u>2025</u>		<u>2023</u> % Ch	
1. Yes	571	81%	68%	+13
2. No	59	08%	10%	-2
3. Not Sure	72	10%	21%	-11
4. Refuse	2	00%	--	--

Q3. Do you agree or disagree with this statement: “Americans living with HIV should receive the health and treatment they need, rather than face criminal charges that discriminate against them and have the unintended effect of discouraging these individuals from seeking proper testing, treatment and disclosure.” (Test Intensity...)

	<u>2025</u>		<u>2023</u> % Ch	
1. Strongly agree	376	53%	46%	+7
2. Somewhat agree	189	27%	33%	-6
Total Strongly/somewhat agree:	565	80%	79%	+1
3. Neutral/Neither agree nor disagree	102	14%	13%	+1
4. Somewhat disagree	7	01%	06%	-5
5. Strongly disagree	25	04%	01%	+3
Total Strongly/somewhat disagree:	33	05%	08%	-3
6. Refuse	5	01%	--	--

Q4. While Pennsylvania does not have a law that specifically targets people with HIV, people living with HIV have been prosecuted under generally applicable criminal laws for conduct that would not be a crime, or would not be as serious of a crime, if not for their HIV status. Do you support efforts to modernize or update Pennsylvania law to prohibit this type of treatment?

	<u>2025</u>		<u>2023</u> % Ch	
Yes	463	66%	64%	+2
No	92	13%	23%	-10
Not Sure	148	21%	12%	+9
Refuse	2	00%	--	--

Q5. Do you agree or disagree with this statement: “Pennsylvanians living with HIV should receive the health and treatment they need, rather than face criminal charges that discriminate against them and have the unintended effect of discouraging these individuals from seeking proper testing, treatment and disclosure.”

	<u>2025</u>		<u>2023</u>	<u>% Ch</u>
1. Strongly agree	431	61%	41%	+20
2. Somewhat agree	186	26%	20%	+6
Total Strongly/somewhat agree:	617	88%	61%	+27
3. Neutral/Neither agree nor disagree	65	09%	24%	-15
4. Strongly disagree	12	02%	12%	-10
5. Somewhat disagree	5	01%	02%	-1
Total Strongly/somewhat disagree:	18	03%	15%	-12
6. Refuse	4	01%	00%	0

METHODOLOGY, SAMPLE FRAME CONSTRUCTION AND DATA COLLECTION PROCEDURES

This poll was conducted by Susquehanna Polling and Research, Inc¹, with questions sponsored by the Elizabeth Taylor AIDS Foundation. Interviews were conducted September 22-28, 2025, with 704 registered voters in Pennsylvania. Survey respondents are randomly contacted using random selection procedures, and all telephone interviews are conducted using live telephone agents. The sample frame was compiled using random telephone sequence methods, and includes both landline and cellular households, purchased from a certified list vendor; all households are pre-screened to eliminate household telephone numbers on the federal Do Not Call registry in compliance with all applicable federal and state laws. Only known registered voters were contacted, compiled from a list of households with prior vote history in 1 of 4 or better general elections using G24, G23, G22 and/or G21 as the base universe. Voters who registered to vote after the 2024 general election are also included and eligible to participate.

Interviews are closely monitored to ensure a representative sample of the Pennsylvania electorate is achieved based on party registration, geography, gender, age cohort and other demographics; results are sometimes statistically weighted to adjust for coverage bias or non-response error.

The margin of error for a sample size of 704 interviews is +/-3.7% at the 95% confidence level.
